

Bluetooth Helmet Set 201

Feel the freedom of driving wireless

The wireless helmet set with an elegant design!

The **Bluetooth Helmet Set 201** can be connected to any Bluetooth mobile phone, navigation system that works with headset, hands-free or A2DP profiles or to one of our *PowerCom* motorbike communication systems.

The **Bluetooth Helmet Set 201** was developed for motorbikes and includes one Bluetooth box, one driving and wind noise compensated helmet microphone, two flat helmet loudspeakers, one replaceable battery and one travel charger.

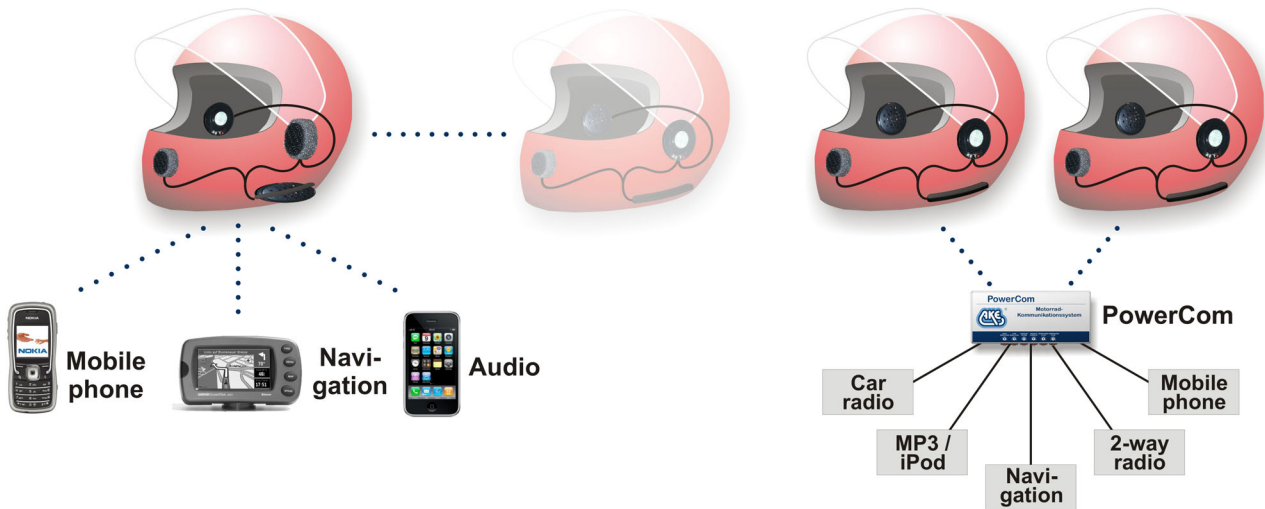

The **Bluetooth Helmet Set 201** is equipped with an integrated booster and offers therefore a comfortable communication even at high speeds.

Almost invisible application due to Stealth design.

Easy handling at helmets with neck guard, with the ergonomic design the **Bluetooth Helmet Set 201** can be integrated almost invisibly and weather protected.

- Our strength is our commitment to quality! -

Scope of applications

Important features:
